Columbia Machine Engineering (I) Pvt. Ltd. increase its presence in Nepal by appointing a new Distributor, Kathmandu Infra Solutions Pvt Ltd. (KISPL).

Columbia Machine Engineering (I) Pvt. Ltd. takes pleasure to announce the appointment of M/s Kathmandu Infra Solutions Pvt. Ltd (KISPL), as an authorized distributor for sales of the entire range of Columbia machines i.e. concrete product solutions and palletizing solutions to a variety of industries with aftermarket support in Nepal.

Kathmandu Infra Solution Pvt. Ltd. provides solutions to the construction & Industrial equipment industry throughout Nepal. They are one of the few reputed companies in Nepal representing both the construction & industrial sectors like concreting solutions, power supply solutions, and Industrial equipment.

"Columbia Machine Engineering (I) Pvt. Ltd believes in providing world-class, locally built machines through motivated and highly trained distributors. We are excited to have associated with Kathmandu Infra (KISPL) to provide customers with world-class product support and service. KISPL team shares in our vision for growth and success and they deliver on everything from equipment sales in Nepal with service and aftermarket support. They have built their reputation and business by focusing on customer-centric values and we look forward to working with them as we expand our reach across Nepal" said Mr. Vasudev Deshpande (Head - Sales & Marketing); Columbia Machine Engineering (I) Pvt. Ltd.; Mumbai, India.

Columbia group of companies has manufacturing facilities on four continents i.e. USA, Brazil, Poland & India with over 1000 team members worldwide, focused on world-class engineered solutions and customer service.

"Our customer base in the Construction and Infra across Nepal sectors presents a huge opportunity for Columbia equipment. Columbia Machines have really impressed us with their product line-up as well as their global brand strength and impressive business growth. Their commitment as a company to support their distributors and ultimately end-user customers are unmatched. We believe that our existing customers, as well as future customers, will receive a greater benefit from the entire range of Columbia machines" said Mr. Kamal Karki, Managing Director of Kathmandu Infra Solution Pvt. Ltd.
